

The Swedish Rheumatism Association

has tested the accessibility of

Mora MMIX Kitchen Mixer

by

Mora Armatur

and can certify that it has reached the level of

APPROVAL

in all handling steps.

The test method has been acknowledged by the Swedish Medical Products Agency as an approved method for testing the accessibility of packaging and device for people with reduced hand strength. The test has been performed in user panels and focus groups by Unicum, Nordic Design for All Centre as well as testkonsulenterna, Spenshult.

The Swedish Rheumatism Association 2010-11-11

Jan Olov Söderberg
General Secretary

Mora MMIX single lever mixer (single lever function)
